

---

## SUMMARY

---

Dedicated Java Developer with 1.5 years of hands-on experience in developing and maintaining scalable web applications using Spring Boot. Proficient in designing and implementing RESTful APIs and integrating with Mysql databases. Strong problem-solving skills with a focus on writing clean, maintainable code. Proven ability to work effectively in collaborative team environments and a commitment to continuous learning and professional development.

---

## TECHNICAL SKILLS

---

- **Languages & Frameworks** : Java, Core Java, Spring Boot, RESTful APIs
- **Databases** : MySQL, PostgreSQL
- **WEB Technologies**: HTML(Basic)
- **Testing Tools**: Manual Testing, Basic Automation Testing(Selenium)
- **Other Tools** : DBeaver, Postman, Jenkins, Jira, GitBash, Dynatrace, Microsoft Excel
- **IDEs** : Eclipse, Spring Tool Suite

---

## EXPERIENCE

---

**Software Engineer (Java Developer) at Digit Insurance | Bangalore, India.**

February 2022-August 2023

- Analyzed Requirements from existing documentation, proactively collaborating with BAs and QAs.
- Conducted unit testing and bug fixing to ensure the reliability and stability of software products.
- Participated in code reviews and collaborated with senior developers to enhance coding standards and best practices.
- Implemented database schema changes and data cleansing techniques to improve data integrity and performance post-migration.
- In Pay-out service ,Developed a dynamic "Refresh API" for real-time database updates in MySQL, eliminating the need for service restarts upon data modifications.
  - Designed and implemented RESTful endpoints using Java and Spring Boot, allowing seamless integration with existing systems.
  - Integrated asynchronous processing techniques to handle database refresh requests efficiently, reducing downtime and improving system reliability.

- Conducted thorough testing and validation to ensure the robustness and security of the Refresh API, meeting industry standards and compliance requirements.
- Payment Link Integration with WhatsApp Communication Implemented a feature to send payment links via WhatsApp based on customer preferences and SA mode.
  - Designed and integrated database storage for flagging WhatsApp communication.
  - Configured templates for WhatsApp messages and ensured compliance with UAT regulations by whitelisting phone numbers.
  - Collaborated with team members to ensure seamless integration with existing SMS and email notification systems.
- Worked on many services like Email, SMS, Payment Gateway, Payout, Medicare Services.

---

## EDUCATION

---

### **Bachelor of Engineering in Electronics and Communication**

Jawaharlal Nehru National College of Engineering, Shimoga

2016- 2020

---

## PROFESSIONAL DEVELOPMENT

---

### **Career Gap Explanation – September 2023 – July 2024**

- Took a planned career break for health-related reasons.
- Focused on recovery and personal development.
- Enhanced skills in Java development through self-study and online courses, covering Advanced Java ,Spring Boot, Microservices, Restful APIs, and Database Management.

---

## CERTIFICATIONS AND ACHIEVEMENTS

---

- Completed Full Stack Development Course from **KODNEST**(July 2021).
- Received '**Tech-Titan**' award for Timely Delivery from Business POV (Oct – Nov 2022).

---

## LANGUAGE KNOWN

---

- English -Professional
- Hindi -Professional
