

VARSHA ANTONY

SOFTWARE TEST ENGINEER

KOCHI | INDIA

7306938482

varshaaantony1021@gmail.com

I am a focused Test Engineer with 2.6 years of experience in software testing. Proficient in manual and automated testing, I excel in creating and executing test plans, identifying defects, and collaborating with teams to ensure high-quality software delivery. Dedicated to continuous improvement and achieving project goals effectively.

Professional Skills

- **Automation Testing** - Experience in Selenium WebDriver, TestNG, Maven depending on the framework and language experience in Java
 - **Manual Testing** - Proficient in Test Case design, Regression testing, Exploratory testing, Functional testing, Integration testing.
 - **Testing Methodologies** - Strong understanding and practical experience in Agile methodologies (Scrum, Kanban), Waterfall practices.
 - **Bug tracking tools** - Familiarity with issue tracking and project management tools like JIRA, Bugzilla for reporting and tracking issues and managing tasks.
 - **Tools & Technologies** - JIRA, Git, Browserstack, JMeter performance testing, OWASP security testing, Postman API testing.
 - **Collaboration and communication** - Strong intellectual skills with the ability to work collaboratively in cross functional teams, communicate effectively with developers, product managers and stakeholders.
 - **Adaptability and learning** - Willingness to learn new technologies, tools and methodologies quickly to adapt to evolving project requirements and industry trends.
-

Work Experience

1) CCS Technologies IT Private Limited | Dec 2021 - Present

- Designed, developed, and executed automated test scripts for a web application using tools such as Selenium, and TestNG with a data driven framework.
- Conducted thorough testing of software web and mobile applications, identifying and documenting defects using bug tracking tools (e.g., JIRA, Bugzilla).
- Knowledge in performance testing for a web application using Apache JMeter.
- Familiarised API testing with Postman, ensuring functionality, reliability, and performance of web services.
- Performed regression, functional, integration, and performance testing to validate software quality and performance.
- Hands-on experience in Azure test plan, enhancing software quality through test case creation, execution, and detailed reporting.
- Created detailed test plans, test cases, and test data based on system requirements and design specifications.
- Prepared and presented detailed test reports and metrics to stakeholders, providing insights into software quality and readiness for release.

Education

- College of Engineering Munnar ,Kerala ,India
Bachelor of Technology (2017-2021)
Electronics and Communication Engineering
