## OBJECTIVE

Experienced QA Automation Test Engineer with over 2.5 years of expertise in Test Automation, eager to secure full-time positions focused on QA Automation.

## EDUCATION

**Bachelor of Technology in Mechanical Engineering**                                    2017 - 2021
College of Engineering Munnar.

## SKILLS

| | |
|---|---|
| **Technical Skills** | Java, Database(MySQL), Selenium WebDriver, Selenium Grid, Git, JIRA, GitHub GUI Testing, Rest Assured, Zephyr Scale, Extent Report, TestNG, JUnit, Jenkins CI Maven, API Testing(Postman), API Automation(RestAssured), Performance Testing(JMeter) |
| **Soft Skills** | Strong organizational and time management skills, Exceptional communication and interpersonal skills, Ability to work independently and as part of a team, Core Banking |
| **IDEs:** | Eclipse, IntelliJ IDEA, Visual Studio |

## EXPERIENCE

**QA Automation Test Engineer**                                                        Jan 2022 - Present
LTIMindtree                                                                            *Pune, India*

- I specialized in GUI Functional Automation, encompassing data validation for databases, Excel, and Data Driven Testings.
- Adept in Regression Test Case Automation with a focus on Banking and Financial-based applications. Experienced in Web Application Testing(BFS Risk).
- I was responsible for Database MetaData Validations and the automation of APIs within the context of application integrations
- Researched and selected automation tools, prioritizing costeffective solutions to shorten diagnostic workflows.
- Authored automated testing reports and presented findings to manager for review
- Completed progressive and regressive testing scenarios
- Supported DevOps integration to align software development and information technology efforts
- Worked with Agile automation. Design, develop, and maintain automated test scripts that align with our sprint goals and user stories. I work closely with the development team to ensure testability and catch defects early in the process.

## PROJECTS

**Automation Framework Development (Cucumber BDD, Java, Selenium, RestAssured).** This framework was designed to streamline testing processes and enhance efficiency. Integrated with Jenkins and parallel execution Capabilities. The framework led to a significant reduction in manual effort, with an impressive 70 percent decrease in overall manual testing workload. - LTIMindtree

**Xpath Validation Project.** For making enhancement within current Automation Framework(Increase Efficiency in Maintenance efforts). - LTIMindtree

**DEV Support for the creation of jar files.** Utilized Selenium - Java for implementing enhancement in Web Applications (Migration Data Validation, File conversion in Application Integration). - LTIMindtree

**JIRA Automation.** Implemented a feature for automatic creation of bugs in JIRA upon completion of automation execution, coupled with email notifications for swift issue resolution and Test case - zephyr integration. - LTIMindtree

**Customized Automation Report.** Customization of Extent Reports according to project Requirement: (Avenstack Extent Reports, HTML, CSS, Javascript) and Excel Reports - LTIMindtree

**Onboarding Support.** Facilitated the seamless onboarding of new resources by overseeing the setup and configuration of development environments, tools, and access permissions. - LTIMindtree

## COMPETENCIES

- Agile Automation Delivery
- Test Script Development
- Gathering Requirements
- Technical Communication Skills
- Devops

## CERTIFICATIONS

- Certified Professional - Selenium Automation Testing: CPSAT
- ISTQB FL Certificate

## ACHIEVEMENTS

- Shooting Star - Team Contributor: LTIMindtree (2023)
- Hi-five - Automation Support: LTIMindtree (2024)
