Projects

ZIP Africa

APRIL 2023 — PRESENT

Description:

ZIP Healthcare is a new tech-enabled one-stop shop in the healthcare space focusing on removing the inefficiencies of the African markets.
Our mission is to use technology to lower the costs and improve the availability of medicines for all Africans. Project mainly focuses on Africa's pharmacists. They play such an important role in the healthcare system. We want to help maximize the time they spend with their customers, so they can provide critical health advice and provision quality medicines at low cost to those who need it the most.
